RICH IN HISTORY

With 18 holes of championship golf in a dazzling wilderness setting, Green Farm Resort stands on the historic Green Farm. The old Green Mill, which was built in 1823, was operated by the Green Family for over 140 years. It was part of a 6,000 acre farm and timber complex that supported several family owned businesses. Farmers from surrounding counties would come to the town with grain for milling into flour and cornmeal.
